Experience

Juspay Technologies, Bengaluru, Karnataka

Oct 2020 - Present

Site Reliability Engineer II | Jan 2026 - Present

- **Cost Optimization (AWS):**
 - Reduced cost for AWS cloud by **\$240,000 yearly** through storage (S3, EBS, DB Snapshots, DB archival and ELS), compute, and Kubernetes optimization initiatives (Pod packing, Spot/OD mix, Karpenter)
 - Introduced Purchasing Commitments - Utilizing reserved instances and savings plans.
 - Improved data transfer efficiency - Zipping telemetry
- **Mentorship:**
 - Fostered a culture of reliability by mentoring junior engineers on system design, cost optimization, and secure deployment practices across 50+ stacks

Site Reliability Engineer I | June 2021 - Dec 2025

- **Led Development of Employee and Access Management Tool (GO) :**
 - **Designed APIs** for Google SSO integration, user management, Grafana, Jira, and internal dashboards.
 - Streamlined onboarding and offboarding processes and automated access management for **1600+ employees**.
- **Contributed to Component Testing Automation and Inventory Tool (Python):**
 - Created backend workflows to test and deploy open-source components in **50+** stacks.
 - Designed an inventory system to track applications and infrastructure for **50+** stacks.
- **Owned and Managed multiple UPI stacks (AWS):**
 - Collaborated with cross-functional teams to deploy and maintain high-performance software systems, ensuring reliability and scalability.
 - Participated in **audits** to ensure stack security.
 - Simplified process for **high-traffic merchant** on-boarding and enabled flawless scaling to handle **3000+ Transactions per second**.
 - Authored **SRE Debugging Documentation** to enhance team troubleshooting efficiency.

Site Reliability Engineer Intern | Oct 2020 - June 2021

- Learned about **Kubernetes, Istio, Envoy, Prometheus, Grafana**.
- Worked with SecOps to setup **JAMF a MDM tool** for managing all the self-hosted servers and computers.
- Wrote automation using **python scripts** for basic use cases like temporary admin access, etc.,

Skills

- **Programming:** C, GO, Python
- **DSA:** Stack, Queue, Linked list, Backtracking, DP, Recursion
- **Cloud platform:** AWS (VPC, EKS, EC2, RDS, ELB, KMS, Lambda, Waf, CloudFormation, CloudWatch, Elasticsearch/Opensearch)
- **Containerization and Orchestration:** Kubernetes (Helm, Kustomize, Istio), Docker
- **Monitoring and Logging:** Victoria Metrics, Prometheus Operator, Grafana, FluentD, Vector
- **Version Control and CI/CD:** Git, Github, Bitbucket, Jenkins

Education

B.E in Electrical and Electronics Engineering, Bannari Amman Institute of Technology
Batch 2017 - 2021

CGPA: 8.76/10.0
